Education

Vellore Institute of Technology

B.Tech in Computer Science and Engineering - 8.17 CGPA

Bhopal, MP

Sept 2023 – May 2027

Relevant Coursework: Web Technologies, Data Structures & Algorithms, DBMS, Cloud Computing, Operating Systems, Computer Networks, Business Analytics

Technical Skills

Languages & Scripting: Python, JavaScript, TypeScript, SQL, Bash

CRM & RevOps Tools: HubSpot (learning), REST API Integration, Webhook Automation, Workflow Design

Automation & Integration: CI/CD Pipelines, GitHub Actions, AWS SES, RESEND, Payment Gateway Integration

Data & Reporting: PostgreSQL, MongoDB, MySQL, Redis, Data Structuring, Dashboard Design, Analytics Reporting

Frontend & Tools: React.js, Next.js, Streamlit, Plotly, Git, Postman, Notion, Google Workspace

Core: Business Process Mapping, System Integration, Workflow Automation, Agile, Documentation, SDLC

Experience

Software Engineering Intern

MPOnline Limited (TCS Joint Venture)

Bhopal, IN

May 2026 – Jul 2026

- Mapped **end-to-end business processes** for **6** real-world client datasets (insurance, HR, banking) - structuring data pipelines & delivering **analytics reports** with actionable insights to senior stakeholders.
- Automated **ML inference workflows** using **Python, Flask & REST APIs**, reducing manual data processing effort by **30%** & deploying production app (**HeartDiseaseDeployment**) serving **100%** uptime across **3** environments.
- Structured & cleaned **6** large datasets applying **PCA, feature engineering & K-Means Clustering**, improving data quality by **40%** - delivering structured **reporting outputs & analytics documentation** to senior engineering stakeholders.
- Collaborated with **3+** senior engineers using **Git**-based version control & **agile** development workflow to iteratively validate system outputs & communicate findings through structured **written documentation** and reports.

Projects

The 24 Fitness - CRM-Style Business System Implementation

[Link](#)

- Implemented end-to-end **business system** for a real client (*The 24 Fitness*) - mapping **sales workflows**, configuring **3 membership tiers** (Basic/Premium/Elite) & automating **15+ business processes** via **Next.js & REST APIs**.
- Configured **payment gateway integration**, automated **invoicing workflows** & transactional email via **AWS SES** - handling **150+ txns/month** with **zero failures** & structured **reporting dashboards** for client review.
- Delivered **client-facing** business transformation achieving **#1** local search ranking & serving **5,000+** active users - demonstrating end-to-end **system implementation** from requirements gathering to live deployment.

EngineerOS - Data Analytics & Reporting Platform

[Link](#)

- Architected **8-module** data platform using **Java 21, Spring Boot & React.js**, delivering **6 structured analytics dashboards** with real-time **data reporting** & business intelligence visualization across Resume, GitHub & LeetCode intelligence.
- Integrated **3** external APIs (**GitHub REST, LeetCode GraphQL, OpenRouter LLM**) with automated **workflow pipelines & Redis caching** - structuring **data outputs** for **400+** user profiles at **5,000 req/hr**.
- Designed **system integration** architecture connecting **6** data sources into a unified **reporting layer**, achieving **40%** improved data processing efficiency - demonstrating scalable **business intelligence** implementation for **400+** user profiles.

Publications

AI Meets Load Balancing - Research Lead

[Link](#)

- Designed **Q-learning-based RL** system integrating **Kubernetes, Envoy Proxy & TensorFlow/PyTorch**, automating intelligent traffic routing workflows & load balancing decisions across **AWS, GCP & Azure** - achieving **40%** latency reduction, **90%** resource utilization & **99.9%** uptime, scaling to **5K+ RPS** with **95%** task completion rate vs **82%** baseline & **<1%** failure rate via **distributed computing** & batch processing optimization.

Certifications & Achievements

Certifications: AWS Certified Cloud Practitioner, Microsoft Azure Fundamentals (AZ-900), Google IT Support Professional

Competitive Programming: 400+ DSA problems on LeetCode (**340-day streak**); Arrays, Trees, Graphs, DP & Greedy

Hackathon Recognition: 2× Runner-up at national-level hackathons (Adobe India Hackathon, Hack4Health Hackathon)

Technical Leadership: Conducted **15** Azure workshops training **100+** students on cloud & business automation as Co-leader

Client Delivery: Shipped **5** production apps ([EngineerOS](#), [24Fitness](#), [Plotify](#)) serving **8,000+** real-world users
